

PRESIDENT MCKINLEY IS DYING

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

The Young Peoples' society of the Baptist church will serve a dinner in the parlors of the church from 11 to 7 on Thursday and Friday of Fair week. Only 25 cents.

Miss Motley will make an elegant display of millinery Monday, Tuesday and Wednesday of next week. See her ad.

P. C. Undike and several assistants are remodeling the interior of the basement of the Bank of Nevada building. Mr. Knapp will open "The Hoffman" saloon there Saturday evening.

Trials will begin in the District Court on the 23d. There are several criminal cases to dispose of after which there will be a number of civil matters to be adjudicated.

The Embley Corner Mining Company is arranging to patent its holdings at Pyramid. The company owns 21 claims, including the famous Crown Prince and Jones & Klucke.

The young women's Christian Association will give a reception in the gymnasium Saturday evening to the students.

All those desiring to make exhibits in the nation during the fair must make application for space before 5 o'clock Tuesday evening.

Louis Barrum has received a cartload of thoroughbred Shropshire bucks from the east.

Serator Flanagan has shipped four loads of lumber to the east already this season.

Cyclists report tracks numerous on the streets. They are evidently being distributed with malice aforethought.

It is probable that the bicycle races during the State Fair will be called off owing to the failure of the Agricultural Society and the wheelmen to agree on the value of the races as a drawing card.

Joe Simpson is wearing one of last winter's socks on each hand, the result of painful burns sustained yesterday.

The case of Trickett vs. the Southern Pacific Company came up in the Justice Court yesterday. It was continued by mutual consent.

W. A. Keddie has been elected financial secretary of the Reno Wheelmen's Club, vice Jay Cox, resigned.

Three Ward and Frank Kornmeyer have leased the Gallagher mine and mill in Plumas county. They are both graduates of the school of mines of the Nevada State University and are going to put some of the ideas obtained there into execution. Their first move will be to put in concentrators in place of the plates now in use there.

Announcement has been made of the engagement of John Sunderland, Jr., of this city to Eulalia Stubbs, daughter of J. C. Stubbs, the railway official. The wedding will take place in Chicago. Mr. and Mrs. Sunderland will make Reno their home.

Two Brothers Die at the Same Hour.

A wonderful coincidence has just come to light. Patrick Keating died in this city at 5:30 o'clock on the 7th inst. The same day his brother, Daniel, whom he had not seen for many years, died in Chicago at 5:30. When the difference in time between these points is compared it is found that their deaths took place simultaneously. What is stranger still, each brother ten days previously, had his nurse write to the other, saying in almost identical language, "I am on my death bed."

NO CAUSE FOR A QUARREL

The Wheelmen in the two Towns Should Kiss and Make Up.

The Journal fears that some ill-feeling is resulting from the challenge of Reno by Carson to a relay race. This should be nipped in the bud and the good feeling between the towns, lately awakened, be continued.

The Carson boys were eager to ride against the local team and were preparing to put up an interesting race. The challenge was declined for reasons that The Journal gave several mornings ago. The local club has too much at stake to go into a contest unprepared and to get into training again would entail a heavy expense, that the gate receipts would hardly justify at this time.

Again there are a number of the members of the team attending the University and could not spare the time to train. King Ryan, the club trainer, has been engaged by the University athletic association until after Thanksgiving.

President Gray of the R. W. C. notified Mr. Wing that if he would obtain a letter from the governing board of the cycling authorities that Mr. Keddie would not lose his standing in amateur ranks by racing Mr. Wing he would be pleased to do so for a trophy of any value.

Altogether The Journal regrets that any misconception of the existing conditions should have gotten out. It is hoped that the feeling of irritation will pass away and that next spring there will be a hot race between Carson and Reno for the championship of the Pacific Coast.

A Photographic Studio Opened.

The new Carbon Studio near the iron bridge was opened yesterday and is one of the prettiest little galleries in the State.

It has been fitted up with all the latest accessories known to modern photography and is a model of neatness. Messrs. Smith & Painter, the proprietors, are both up-to-date photographers and expect to do all kinds of photographic work.

New Addition to the City of Reno

Lots in the St. George Addition are selling rapidly. J. W. Simpson secured two in Block H; A. D. Welty two in Block J; T. J. Smith, Lot 1 in Block G; Judge Packard, Lot 2, in Block G; three were sold in Block K, Lots 110-11-12.

At the prices, these lots should sell rapidly, as the sites is one of the best. We predict that these lots in a year or so will be selling for good sums of money and an investment should be sought after.

It will be without doubt the site selected by those seeking permanent homes. We understand that St. George is making arrangements for the sinking of wells such as are on the grounds of the University that those who purchase may have fine drinking water.

Unfavorable symptoms developed last night in the President's condition. He grew steadily worse and death was expected at any moment. He later rallied and it is now hoped that he will live at least throughout the day.

SAD is the news The Journal lays before its readers this morning. Yesterday William McKinley, the beloved President of the United States, was apparently rallying from the effects of an Anarchist's bullet. This morning he is dying.

Friday, and the thirteenth day of the month. Amid the sadness of the occasion arises the thought, even in the mind of the least superstitious, that there are signs and omens of evil.

Before midnight telegrams of grave import began to reach the office of The Journal and preparations were made to announce the worst and saddest to the city that slept unconscious that the life of the President was fast ebbing away.

First came the tidings that unfavorable symptoms had developed. The condition of the Chief Executive was regarded by the physicians as exceedingly precarious. Here is the message that gave us the first warning of the possible culmination of the tragedy of a week ago:

BUFFALO, Sept. 12, 8:30 p. m.—The President's condition this evening is not quite so good. His food has not agreed with him, and has been stopped.

It was with a feeling of relief that was read the report of the President's private secretary, issued shortly after midnight, when Mr. McKinley seemed for a time to rally from his sinking spell:

BUFFALO, Sept. 13, 12:10 a. m.—All unfavorable symptoms in the President's condition have improved since the last bulletin. Pulse 120; temperature 100.2.

Then was flashed to The Journal an ominous bulletin:

BUFFALO, Sept. 13, 3:20 a. m.—The President is sinking. All doctors have been summoned, and it is feared he is dying.

A few minutes later arrived a confirmatory dispatch, which seemed to sound the knell of hope that the report of the condition of the President had been aggravated;

BUFFALO, 3:45 a. m.—Death may come at any moment.

A few minutes later came the following, which more fully evidenced the critical condition of the Nation's Chief Executive:

BUFFALO, 4 a. m.—Cortelyou gave this out: The President is being kept alive by strychnine. He is very low and the doctors are working hard over him. There is the gravest danger on account of weak heart action. The windows of his room have been opened and everything is being done to get the most air. All relatives and friends have been summoned. There is great excitement as it was then believed the President was dying. Cortelyou would not admit that this was the case, but he gave out the impression that there was the gravest fear for the President's life. This was at 3:30 a. m.

4:05 a. m.—Dr. Minter just came from Milburn house and said the President was no better. Dr. Mann said he had rallied slightly.

Twenty minutes later brought a message that the Executive had lapsed from the temporary rally caused by the administering of powerful stimulants.

5 a. m.—The President is in a semi-stupor. He rallies at the approach of any of his attendants, but almost immediately lapses into a state approaching unconsciousness. He is exceedingly weak and his heartbeats are erratic. The situation is said by Secretary Wilson to be as discouraging as it well could be and still give any ground for hope.

4:25 a. m.—The rally at 4 o'clock was very slight. Secretary Cortelyou said the President was resting but he offered little in the way of encouragement. An hour and a half later there were no symptoms for the worse and all signs point to the probability that Mr. McKinley will live out the day at least.

6:30 a. m.—The President is sleeping quietly and there has been no change for over an hour.

7:30 a. m.—The President is still sleeping.

WILLING TO COMPROMISE

The Railroad and Its Assessment in This State.

E. H. Harriman is negotiating a compromise of the Southern Pacific differences with the Nevada State and county authorities concerning taxation of the Central Pacific mileage. Last year's assessment was \$5,148,000, which was raised this year to \$9,000,000 on the basis of \$30,000 a mile for main track and \$7000 a mile for sidings. United States District Judge Hawley declared this assessment illegal.

Harriman offers to let the assessment stand at \$6,750,000, on a basis of \$15,000 a mile for main track and \$3500 a mile for sidings. The Central Pacific runs through six counties in Nevada and all of them save Lyon county have agreed to the compromise. Lyon county has but eleven miles of main track and a mile and a third of sidings, but it insists on the original figures for its share.

Last year the company's rolling stock was assessed in Nevada at \$720,000. This year the corporation asks for a reduction to \$560,000 on the grounds that the Pullman Company is now taxed for its own cars and that the Central Pacific rolling stock is old and depreciated in value. The company pays taxes on 1,000,000 acres of land in Nevada, much of which is assessed for over \$1 an acre. The corporation asks for a reduction of this item.

Is Fighting for Her Brother's Freedom.

Mrs. Elmer, nee Madeline Bouton, the famous actress, is registered at the Big Meadow Hotel from New York. She has been here all week in consultation with Attorney C. H. McIntosh and is out here on an attempt to get her brother, Vic Bouton, out of prison. Bouton was sent up from Humboldt county last year for cattle stealing. He was given seven years.—Lovejoy Tribune.

Promises to Be a Great Success.

The coming fair promises to be one of the best ever held in the State. The stables are fast filling up with horses that have made splendid records all over the circuit.

Considerable space for the exhibition of live stock has been contracted for and unless all indication fail this will be one of the best parts of the exhibition.

Fire on the Comstock.

A fire occurred in Virginia yesterday morning. It originated in the cabin of Dan DeWitt. He arose and went to work, but left a lighted candle or a cigar stump where it ignited the cabin. In a room adjoining the place where the fire was stopped there was a box of giant powder. If the firemen had not done good work the dynamite would have scattered the blaze and caused a large fire.

TO PARENTS AND STUDENTS.

Straining the eyes while studying means inflamed eyelids, headaches, nervousness, cross eyes, muscular weakness and thousand other defects. Parents should help to make studying a pleasure for children, instead of a task, by taking them to the Frank Golden Jewelry Company and having their eyes properly examined to see if there is any defect in the eyesight.

JOHN T. DENNIS, Editor

THE CHAMPION LIAR.

NOTICE in the Wadsworth Dispatch, a paper published in the Los Angeles, Cal., purporting to be from a Reno correspondent of the last named paper. We did not notice it in the issue of September 11th, in the Journal office. From the multitude of lies we extract the following:

"The Journal has been in the slinks because they were not represented on the ticket, but Mr. Newlands, friends say, they ought to be satisfied with a printer's outfit and a newspaper of considerable circulation through the state."

"We did not believe that the above was written in Reno, for such a phenomenal lie, and misbegotten character could not have lived here three days without his characteristics becoming so generally known that he could be detected by instinct and without the aid of eyes or glasses."

"Perhaps we are wrong in noticing the ebullition of the mongrel cur, and would so, but for the purporting letter being reproduced in a decent paper like the Wadsworth Dispatch. We will, however, say that we will place \$300 in either of the Reno banks to any person who will produce the slightest evidence of the following: That Mr. Newlands has donated, contributed, furnished or promised as material to the present management of the Journal for any purpose whatever; that he has never promised or been asked for any pecuniary aid by anyone connected with this paper; that the Journal could so far as pecuniary obligations are concerned and without breach of faith, as honorably support John Doe or Richard Roe for United States Senator as Mr. Newlands; that Mr. Newlands be Mr. Sharon, his political manager, notwithstanding the change in The Journal until the first number was issued under the new management; that not a dollar has been furnished even in the shape of a loan by anyone connected with the publication of this paper; that the money spent upon the management of The Journal was honestly earned by legitimate and unsubsidized journalism in other parts of the State."

"If any enterprising or skeptical person who aspires to get all the facilities in our power. We will agree that every person connected with The Journal office, Mr. Newlands, Mr. Sharon and everybody else whom the aspirant for the reward may choose, shall be examined under oath as to the truth or falsity of the above statement, and if all or any part of it is untrue the examining party shall take in the pot."

The publishers of The Journal believed that a first-class paper would pay in Reno—at least first-class in proportion to the field it occupies, and they chanced their money upon the prospect, and have not yet cause to regret their investment.

"No notice will be taken in the future of any lies of this character, so liars ambitious of notice in these columns will have to select some other subject upon which to exercise their peculiar talent. We have spoken."

DESPICABLE METHODS.

THE Sampsonites are giving great depth and breadth to their preparation for the coming Court of Inquiry. Admiral Howison has not asked relief from service, although an undetected interview published in a Boston paper utterly disqualifies him to sit as a judge in the case, independent of the fact that Sampson, Crowninshield and Chadwick, have retained Howison's nephew, as their counsel, which in itself has anything but a decent appearance.

It is now generally believed that the bureau ring fully expect to keep Sampson off the witness stand upon the plea of illness, and that the facilities that the conspirators have at hand will enable them to do it. Unless Sampson the instigator of the charges against Admiral Schley, and the entire foundation of the scandal, can be placed on the stand and thoroughly cross-examined, it is impossible to imagine what good purpose can be served by holding a Court of Inquiry at all. Sampson who has thrown his arrows in the dark, should be compelled to give his reasons for throwing them, in the full light of day. For his own sake, if he has a spark of honor, he should wish to do so. Unless he and his friends felt that their carefully prepared story of the battle at Santiago would not hold under an intelligent cross-examination, it is conclusive evidence that they would not dodge, nor let Sampson dodge such an ordeal.

It is not so long ago that the ring conspirators were declaring their earnest hope that the victor of Santiago would ask for a court of inquiry, in which even the man who wasn't there would show the world what he could and would do to Admiral Schley. He has asked for the court and it has been created; but they do not seem to take much comfort from a situation which a short time ago they were loudly clamoring for. On the contrary, they are resorting to methods which would disgrace a shyster or lawyer in a Police Court. These methods are evidently dictated by panic and fear, and which are

body besides Schley is, or will be on trial. They are not, however, doing the prosecution's cause any good by their pounce. It is too transparent.

THE JOURNAL is in receipt of a letter postmarked Hobart Mills and signed "Defrauded laborers of —." There is no personal signature therefore we decline to publish it. It is hardly reasonable for anyone who professes to know all the facts, to expect a newspaper that knows nothing about them to shoulder the responsibility of that which the aggrieved ones decline to assume. The Journal is always ready and willing to give place in its columns, to communications relating to the grievances and interests of workmen, but as in other cases they must not be libelous and must be accompanied by the name of the writer to insure insertion.

"THE RACYLE" has reached a point of perfection in mechanical construction that has not been attained by any other manufacturer of bicycles. AT THE BASE OF THE SNOW-CROWNED RUBIES

A Little-Known Nevada Valley Which Delights the Tourist's Eye.

(By C. D. VanDuser.)

As the traveler comes out of Secret Valley he sees, before him, a panorama of grain fields just now golden and meadows green and fresh. Isaac Woodhouse runs the postoffice at Arthur and about him, around the head of the valley we find Joe Wright, Isaac Wolverton, Thos. Heep, S. Bachman and partner and Harry Kinkins. They all have cattle and feed ranches. The rest of the ranches along the western side of the valley are all along the road. Sam McMullens of Starr and George Robinson have large ranches. George Robinson represents the W. J. Denton Co. and is one of the principal owners. Ira Wines at Beames, the owner of a large band of cattle and a fine ranch, has one of the prettiest locations in the valley and if the Alps of Nevada were situated in the east, Ira Wines' place would be a famous resort.

Just before reaching Wines a large brick house stands out alone above the road and it is the home of Thomas Short, the Sage of Ruby Valley. One could remain a day listening to the charming conversation and unique anecdotes of Tom Short. He has a herd of thoroughbred cattle containing reg-

istered Durhams, as fine as can be found on the Pacific Coast.

Ruby Valley, as Nevada grows, will be much sought out as one of the beautiful health resorts of the coast. She represents all that is interesting in Western life and is as near the old frontier life as can be found in the west.

Under a system of storage reservoirs, or artesian wells, tens of thousands of acres could be profitably cultivated and the valley just on the edge of a great railway natural pass will some day be a commercial center.

If the Southern Pacific cuts off at Wells, Ruby Valley will be within easy reach. If Clark's Deep Creek road materializes she will be in reach of that line.

In the mean time a happy people, contented and rich, enjoy the incomparable scenery, breathe the pure air and enjoy a perfect climate, with pure water gushing from every mountain ravine and have within reach what millions of people long for, what hundreds of thousands of Americans spend fortunes to see and get in Europe, to see scenery and to gain rest and health. They are all found in Ruby Valley and in the Ruby mountains.

Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia Street, C. J. Brookins' store.

STOOD DEATH OFF.

E. B. Lundy, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germ and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous complaints, kidney troubles, female complaints; gives perfect health. Only 50 cents at S. J. Hodgkinson's drug store.

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by S. J. Hodgkinson, druggist.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houston, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at S. J. Hodgkinson. Sold by all dealers in all civilized countries.

A SHOCKING CALAMITY.

"Lately befell a railroad laborer," writes Dr. A. Kollett, of Williford, Ark. "His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him. It's simply wonderful for Burns, Boils, Piles and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25 cents. Sold by S. J. Hodgkinson, druggist."

A Strong Woman

Iowa City, Iowa, Aug. 15, 1900
My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the harvest. She attended to all her household duties and loaded and unloaded all the hay. This medicine gave her strength. Presently she was weak and tired and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when 30 years of age. **JOS. A. KESSENBAUER.**

Mrs. Kessenbauer had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took Wine of Cardui.

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not so tiresome to a woman's health as labor in shops, factories and offices where thousands of girls are confined year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains a woman grows well and strong naturally. Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. The Wine of Cardui greatly increases strength and endurance to the natural limit. Head cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Theodor's Black-Drainage.
